Date: 15.09.2017

**Certificate of product qualification
For use in ecological agriculture**
Issued for: **AINEG – POL Service, Trade and Production company
Genowefa Laskowska**

Upon request of manufacturer, dated 10.07.2017, in accordance with Regulation of the Minister of Horticulture and Rural Development of 2nd of March 2010 (Dz. U. Nr 54, poz. 326 z późn. Zm.), the agent improving sorption properties of the soil labelled **ECO-PLON VOLCANIC MINERALS** has been qualified by IUNG-PIB in Puławy for use in ecological agriculture.

The product is listed on the list of fertilizers and agents improving soil properties, qualified to use in ecological agriculture under the identification number NE/370/2017.

The certificate is not a guarantee of value in use of the product. **AINEG-POL Service, Trade and Production company Genowefa Laskowska** is responsible for the quality of the product.

The certificate shall become invalid when there is a change in technology used to manufacture the product (the fibre composition or the origin of raw materials), which could significantly affect its properties. Manufacturer is obliged to immediately notify IUNG-PIB in Puławy.

Director of Department
